ART INSPIRED BY THE SCREAMS OF SOULS

CORPSE ART

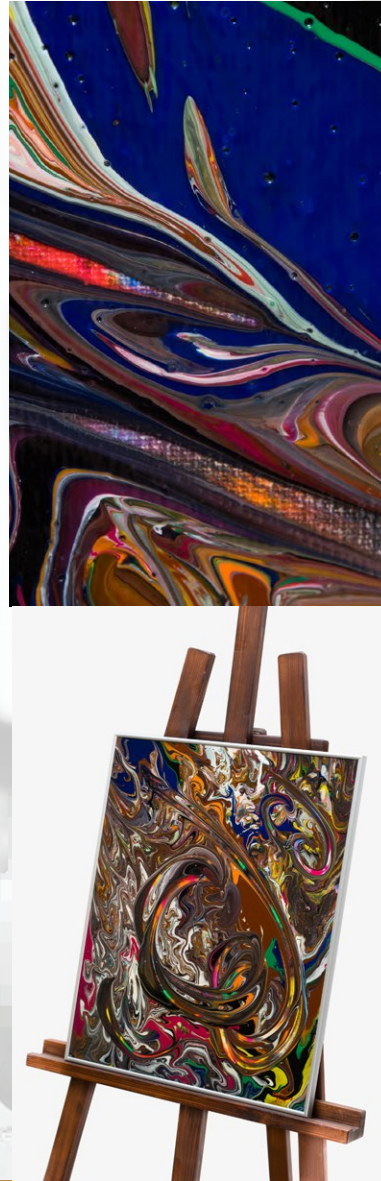

## ABOUT THE ARTIST

Hibinimus is one of those people who creates art when various emotions accumulate. Art is a way of showing what his soul and heart perceive as far as he is concerned. He is haunted by the myth of a person who is not afraid of anything in the environment of his associates, and has nerves of steel. However, the activities which - it would seem - he carries out passionately, leave an indelible mark in his memory. The irremovable scars are the more shocking images of human cruelty. As a man, he is a mature, truth-seeking person who asks dozens of questions. He is a father, owner and carer of cats.
